

THE CITY OF PLEASANTON

October 21, 2021

A D D E N D U M N O . 1

**ANNUAL WATER DISTRIBUTION SYSTEM IMPROVEMENTS
PROJECT NO. 22183**

This Addendum is hereby made a part of the project contract documents. It shall be the responsibility of the general contractor to inform any affected subbidder of the content of this Addendum.

The contract documents are modified/clarified as follows:

1. On drawing C-3, at the south end of the project where a new 12" gate valve tie into the existing 12"x10" cross, shall be flange by flange (FLxFL).

Questions and Answers:

1. Q: Where are the Backflow Preventers to be installed?
A: Backflow preventer shall be installed between new gate valve and bridge. Increase spool piece as necessary to accommodate the temporary backflow device.
2. Q: What sizes are required?
A: For 12" water line, minimum 4" backflow preventer is required. For 16" water line, minimum 6" backflow preventer is required.
3. Q: Please provide a detail or reference to a City of Pleasanton Standard Detail for the Backflow Preventers?
A: Contractor shall submit detail drawing during shop drawing phase and include details of temporary blowoff demonstrating of meeting the requirements of Section 14-02J Backflow Prevention and Fire Services of the City Standard Specifications and Details,

All other items of work in the contract document remain unchanged. Acknowledgement and a signed copy of this Addendum shall be included in the Bid Proposal.
